Steps to ensure the auto-numbering feature works correctly in Internet Explorer 7

1. Select “Tools” and then “Options” in Internet Explorer 7.

2. On the “General” tab, select “Settings” in the “Browsing History” section.
3. Select “Every time I visit the webpage” in the “Temporary Internet Files and History Settings” window.

4. Click “OK” to close the “Temporary Internet Files and History Settings” window.

5. Click “OK” to close the “Internet Options” Window.
