Wells Fargo Merchant Services

WELLS  
FARGO

## Use the Newest Technology to Offer Multiple Payment Options to Customers

Feature-rich point-of-sale solutions are becoming more critical. The FD-200 supports retail, restaurant and quick service merchants who accept checks and a wide variety of card types. Offering multiple payment options translates into more satisfied customers. With Wells Fargo you have an all-in-one payment solution that will keep your customers coming back.

### Features Maximize Your Payment Solutions

- All-in-one payment solution — Process check payments with Telecheck, as well as card payments, including Visa®, MasterCard®, American Express, Discover® Network, PIN and signature debit, and gift cards.
- Touch screen capability — Process simply with intuitive touch screen interface and multiple choice display prompts.
- Integrated check reader — Convert paper checks into electronic items automatically at the point of sale for fast, accurate and secure check processing.
- Automatic check void — Automatically voids checks after scanning.
- Large batch capacity — Stores 450 transactions.
- Solid security — Be alerted to suspicious activity with a suite of fraud services. Supports Address Verification Service (AVS), Card Verification Value (CVV2), and Card Verification Code (CVC2).
- Two printers — 15 lines per second thermal printer utilized for credit card receipts. Inkjet defacement printer only prints VOID on the face of the check to help conserve ink and costs.
- Fast connection — Broadband connection is faster than dial-up.

### Plus Enjoy These Additional Benefits As Our Customer

- Improve cash flow — Receive funds from most transactions the next business day when you fund to a Wells Fargo deposit account.
- Get 24/7 access to your data — View account information and use a wide range of management tools online with our included Internet-based service.
