Assigned to new Agent.

This is a multiple award contract. Please review the following contracts for optimal pricing, delivery and service before making your purchasing decision: MA-1137 (DELL), MA-432 (HP), MA-1917 (LENOVO), MA-965 (EMC), MA-1813 (APPLE), MA2114 (Net App Inc), MA021 (Howard), and MA-130 (IBM). Documentation of your purchasing decision should be kept for each transaction.

This contract covers only those items listed in the price schedule. It is the responsibility of the agency to ensure that other items purchased are invoiced separately. State agencies will place orders directly with the vendor creating a PRC in Finet. Agencies will return to the vendor any invoice which reflects incorrect pricing.

Items in this contract are environmentally friendly.

Scope of Contract
File/Print Servers, Mid-Range Servers, Workstations, and Auxiliary Storage Solutions are available for purchase under this contract.

Pricing listed on the web page for this vendor is the maximum price per single item. If you are in need of multiple units you can often achieve better pricing by sending this request to the contract’s contact for a quote. The greater the quantity and more standardized your configurations are will reduce the quote. Also soliciting competing quotes among the different manufactures will also lead to more aggressive pricing.

Software listed on the Oracle/Sun’s webpage is not available under this contract and should not be purchased. Please see contracts MA-362, MA-371, and MA-1448, for off the shelf software and see the appropriate contract for enterprise managed licenses programs.

This agreement is NOT for the purchase of major, large hardware or hardware and software offerings. In general, individual units/configurations should not exceed $300,000.00 each. However, this does not limit how many items or the total dollar limit on any given purchase.

Ordering

Pricing
Pricing can be obtained by visiting the Oracle web page:

First time users will have to register for a username and password.
